Activation

SchoolPass

Breakway Academy utilizes the SchoolPass app at both school locations. In grades K-3, parents use the app to select daily athletic options. In grades 4th-8th grade, parents use the app to select athletic flex and during dismissal.

Getting Started

Unique login instructions provided by SchoolPass are required to begin. A Welcome to SchoolPass email is provided to new users. New families receive login credentials the week prior to the start of the school year. If enrolling during the school year, login credentials are sent during the onboarding process.

Please follow the instructions below to set up your profile.

Step 1:

Locate the Welcome to SchoolPass email to setup your SchoolPass Profile.

- Be sure to setup your profile using the website, not the app.
- After your profile has been created, wait 10 minutes before signing into the app noted in Step 2. The 10-minute waiting period allows your newly created profile to sync with the app.

Step 2:

Download the SchoolPass app:

Get it on Google play Available on the App Store
